

Facts About Teva Generics

Teva Generics, a division of Teva Pharmaceuticals, is one of the leading generic medicines manufacturers in the United States.¹ At Teva Generics, we know that feeling your best can be just as important as sticking to your budget. That's why we are proud to offer approximately 500 affordable and quality generic medicines for a wide range of health concerns.¹

A Quick Look at Teva Generics:

1 in 14 generic prescriptions in the U.S.
is filled with a Teva medication²

Teva Generics are **FDA approved**

When patents expire on a brand-name medicine, generic manufacturers can request and receive FDA approval to manufacture and sell a generic version of the medicine.

Our generic medicines:^{3,4}

- ✔ Meet strict FDA standards for purity and quality
- ✔ Work in the body the same way as the brand-name medicines
- ✔ Contain the same active ingredient(s) as the brand-name medicines
- ✔ Are manufactured in FDA-inspected facilities that meet the same FDA standards of good manufacturing practices as brand-name medicine facilities

Ask your doctor or pharmacist about Teva Generics

At Teva, it's extremely important to us that safe, affordable, and quality medicines are available for you when you need them. At your next visit to the pharmacy, ask your pharmacist to fill your prescription with the Teva generic drug.

Teva medications are available at your local pharmacy

- ✔ Most retail and mail order pharmacies carry Teva products
- ✔ If the pharmacy doesn't regularly stock a certain medication from Teva, ask if it can be ordered for you at no additional cost
- ✔ Check to see if Teva offers your brand-name medication as a cost-saving generic

Teva Generics won't always look like the brand equivalent

Generic drugs may be different from the brand when it comes to:

- ✔ Shape
- ✔ Color
- ✔ Flavor
- ✔ Inactive ingredients

However, Teva Generics use the same active ingredients and work in the same way as the brand-name drug to help you reach your treatment goals.

Teva Generics can **save you money**^{3,4}

- ✔ We do not develop a medicine from scratch
- ✔ We do not need to repeat costly clinical trials and research which brand manufacturers have already done
- ✔ We do not have expensive advertising and marketing programs

Teva does not set the price at the pharmacy so prices can vary between pharmacies. Simply contact your pharmacy to inquire about the cost of your medication, and be sure to tell your pharmacist if you have insurance.

In 2023, Teva Generics saved the
U.S. healthcare system **\$36.3 billion**.⁵
